## CONFERENCE PRESIDENT DGFI / PRESIDENT DGFI

Prof. Dr. rer. nat. Christine Falk  
Institute of Transplant Immunology  
Medizinische Hochschule Hannover (MHH)  
Carl-Neuberg-Strasse 1 / 30625 Hannover / Germany  
[www.mhh.de/en](http://www.mhh.de/en)

## CONFERENCE PRESIDENT ÖGAI / PRESIDENT ÖGAI

Univ.-Prof. Dr. med. Erika Jensen-Jarolim  
Institute of Pathophysiology and Allergy Research  
Center for Pathophysiology, Infectiology and Immunology  
Medical University Vienna  
Währinger Gürtel 18-20 / 1090 Vienna / Austria  
[www.meduniwien.ac.at/hp/ipa/allgemeine-informationen/team/abteilungen/comparative-immunologie-und-onkologie/](http://www.meduniwien.ac.at/hp/ipa/allgemeine-informationen/team/abteilungen/comparative-immunologie-und-onkologie/)

## CONFERENCE OFFICE

K.I.T. Group GmbH  
Association & Conference Management  
Kurfürstendamm 71 / 10709 Berlin / Germany  
Phone: +49 30 24603-0  
Email: [immunology2022@kit-group.org](mailto:immunology2022@kit-group.org) [www.kit-group.org](http://www.kit-group.org)

# Welcome Message

Dear Friends and Colleagues,

On behalf of the German Society of Immunology (DGfI) and the Austrian Society for Allergology & Immunology (ÖGAI), we are pleased to invite you to our joint annual meeting in Hannover, from September 7th to 10th 2022 at Hannover Medical School. With this upcoming joint meeting, we would like to continue the series of successful joint meetings in 1995 and 2008 Vienna.

DGfI was founded in 1967 and ÖGAI, who celebrated its 50th anniversary in 2021, shortly after. Both societies represent scientists and medical doctors interested in the physiology and pathophysiology of the immune system as well as clinical presentation, diagnostics and therapy of all immune related diseases including allergies. Our common goals are to bridge basic and clinical science to directly translate knowledge of immune mechanisms into improvement of therapy and prevention of immune dysfunction. Both societies promote education and career development of the next generation immunologists and foster scientific networks as well as interdisciplinary working groups specialized in immunological topics.

With this joint meeting in 2022, we not only follow a successful tradition, but we celebrate our 51<sup>th</sup> annual meeting of the DGfI, together with the 50<sup>th</sup> annual ÖGAI meeting. With our scientific program, we intend to bring basic immunology into the context of various diseases including allergy, autoimmunity, cancer, transplantation and infections, of course with special attention to COVID-19.

Hannover Medical School (MHH) was founded, as DGfI, in 1967 in the city of the philosopher, mathematician and historian Gottfried Wilhelm Leibniz, who somehow anticipated a modern health campus with his motto „unitas in diversitate“ (united in diversity), „theoria cum praxi“ (theory with practice) and „commune bonum“ (the common good). MHH scientists and doctors are closely working together with colleagues of the Leibniz University Hannover, the Helmholtz Centre for Infectious Diseases (HZI) in Braunschweig and the Research Centres TWINCORE and NIFE. Research is supported by DFG-funded Collaborative Research Centers (CRC900, TRR127, TRR209, TRR298), Research Groups (KFO311, FOR2953, FOR2380) and the Centres of Excellence „RESIST“ and „Hearing 4 All“. Immunology is in the heart

of all major clinical areas at MHH, i.e. Infection & Immunity, Transplantation & Regeneration and Biomedical Technology & Implants. In these disciplines, we join forces to be prepared for the future challenges of immunotherapy and personalized medicine. The Leibniz-spirit will enforce us to create a memorable scientific and social event for researchers, clinical scientists and clinicians, all unified by a strong interest in immune-driven diseases.

Together with the organizing committee, we are very much looking forward to welcome you all in Hannover.

Sincerely yours

Prof. Dr. rer. nat. Christine S. Falk (DGfI)  
Conference Chair  
Institute of Transplant Immunology  
Medizinische Hochschule Hannover (MHH)

Univ.-Prof. Dr. Erika Jensen-Jarolim (ÖGAI)  
Conference Chair  
Institute of Pathophysiology and Allergy Research  
Center for Pathophysiology, Infectiology and Immunology  
Medical University Vienna

## Scientific Topics

### PLENARY SESSIONS

- COVID-19 Special
- Microbiome & Metabolism
- Immune Tolerance
- Autoimmunity & Immune Dysregulation

### MAIN SESSIONS

- Adaptive Immunity
- Innate Immunity
- Immunological Research in Allergology
- Transplantation
- Tumor Immunology
- Imaging & Priming of Immune Responses
- Neuroimmune Disorders
- „Inborn Errors of Immunity“ - Immunodeficiencies
- Cells bridging Innate and Adaptive Immunity
