

Besinnliche Feiertage

und ein gutes 2023!

Liebe ÖGAI Members!

Das Jahr und die Vorstandsperiode 2021–2022 neigt sich dem Ende zu. Unser erklärt Ziel war es, Sie, als ÖGAI Mitglied oder unterstützendes ÖGAI Mitglied, auf unsere Gesellschaft, die ÖGAI, stolz zu machen.

Gesunde Entwicklung findet nur statt, wenn man sich auch seiner Wurzeln bewusst ist. So haben wir in den beiden letzten Jahren die Entwicklung und den heutigen Stellenwert der ÖGAI im Film zum 50. Geburtstag der Gesellschaft reflektiert und mittels Presseaussendungen in die Öffentlichkeit hinausgetragen. Der Vorstand hat neu gedacht und die unsere wissenschaftliche Gesellschaft durch innovative Initiativen noch attraktiver gemacht und auf ökonomisch sichere Beine gestellt. Noch nie waren die Allergologie und Immunologie so gefragt wie in den letzten Jahren. Und noch nie war unsere Expertise wichtiger. Unsere Expertise stellen wir in Webinaren zur Verfügung, die auch 2023 wieder Fortsetzung finden werden. Wir haben eng mit Patienteninformationsdiensten zusammengearbeitet und virtuelle Sprechstunden und Informationstage abgehalten. Wir machten uns fit für virtuelle, hybride und reale Formate in nationalen (Jahrestagung *Planetary Health and Immunity 2021*) und internationalen kooperativen Tagungen (*Joint Meeting Hannover, MESIA*).

Erstmals hat ÖGAI mit dem Allergojournal und AllergoJournal International ein Verbandsjournal. Besonderer Dank gilt unseren unterstützenden Mitgliedern aus der Industrie, denn ohne Ihre großzügigen Beiträge wäre die Rundum-Erneuerung der ÖGAI in den letzten beiden Jahren nicht möglich gewesen. Dank an dieser Stelle auch für Ihr Verständnis dafür, dass wir die ÖGAI Mitgliedsbeiträge den aktuellen Standard anpassen durften. Danke auch an alle ÖGAI Vorstandsmitgliedern, die mit uns diesen herausfordernden Weg gegangen sind, und sich konstruktiv für die Entwicklung der ÖGAI und die Förderung unserer Next Generation Immunologists engagiert haben.

Ganz besonders freut es uns aber, bereits heute zur ÖGAI Jahrestagung 2023 einladen zu dürfen! Sie wird unter der Leitung des designierten Präsidenten Wolfram Hötzenecker zwischen 14.– 16. September (Donnerstag bis Samstag) an der Medizinischen Fakultät der Johannes Kepler Universität Linz stattfinden.

Es war uns eine Ehre, unserer Gesellschaft in den Jahren 2021 und 2022 in besonderer Weise dienen zu dürfen und wir freuen uns darauf dies auch in der nächsten Vorstandsperiode in

anderen Rollen fortzusetzen.

Mit herzlichen Wünschen für die Weihnachtszeit und auf ein Wiedersehen im Neuen Jahr.

Ihre

Erika Jensen-Jarolim und Eva Untersmayr-Elsenhuber
Präsidentin

Generalsekretärin

Dear ÖGAI Members!

The year and the board period 2021–2022 is drawing to a close.

Our declared goal was to make you, as an ÖGAI member or supporting ÖGAI member, proud of our society, the ÖGAI.

Healthy development only takes place when one is also aware of one's roots. Thus, in the last two years, we have reflected on the development and current status of ÖGAI in the film celebrating the Society's 50th birthday and have taken it out to the public by means of press releases. The Board of Directors has rethought and made our scientific society even more attractive through innovative initiatives and placed it on an economically secure footing. Never before have allergology and immunology been in such demand as in recent years. And never has our expertise been more important. We make our expertise available in webinars, which will continue again in 2023. We worked closely with patient information services and held virtual consultations and information days. We made ourselves fit for virtual, hybrid, and real-world formats in national (Annual Meeting Planetary Health and Immunity 2021) and international collaborative meetings (Joint Meeting Hannover, MESIA).

For the first time, ÖGAI has an association journal, AllergoJournal and AllergoJournal International. Special thanks go to our supportive members from industry, because without your generous contributions the all-round renewal of ÖGAI in the last two years would not have been possible. Thanks at this point also for your understanding that we were allowed to adjust the ÖGAI membership fees to the current standard. Thanks also to all ÖGAI board members who have walked this challenging path with us, and have been constructively engaged in the development of ÖGAI and the promotion of our Next Generation Immunologists.

However, we are especially pleased to invite you to the ÖGAI Annual Meeting 2023 already today! It will take place under the leadership of President-elect Wolfram Hötzenecker between September 14–16 (Thursday to Saturday) at the Medical Faculty of the Johannes Kepler University Linz.

It has been an honor to serve our Society in a special way in 2021 and 2022 and we look forward to continuing this in other roles in the next Board term.

With warm wishes for the holiday season and to see you again in the New Year.

Yours

Erika Jensen-Jarolim and Eva Untersmayr
President Secretary General

ACTERIA Early Career Research Prizes

Dear All,

Just a quick reminder that the call for applications for the 2023 ACTERIA Early Career Research Prizes [2] is open and will close on 31 December, 2022.

EFIS trusts that your Society will do its best to circulate this announcement as widely as possible to your constituency.

Full details on eligibility criteria and application procedures – as noted in the attached poster that we hope you can and will share with your members – are available at www.acteriaprizes.net.

With best wishes,
T. Wiley

IUPAC Global Women's Breakfast

You are invited to the [IUPAC Global Women's Breakfast](#) #GWB2023

"Breaking Barriers in Science"

14 Feb 2023

The aim of the GWB series is to celebrate the accomplishments of Women in Science and to inspire younger generations to pursue careers in science. Women and men from all types of science organizations from high schools, universities, companies, science societies, government and non-governmental organizations come together to share breakfast either virtually or in-person. The theme of the 2023 GWB is "Breaking Barriers in Science".

Held in conjunction with the U.N. Day of Women and Girls in Science, a central goal is to establish an active network of people of all genders to overcome the barriers to gender equality in science. The Global Breakfast facilitates the formation of communities on a local, regional, and international scale to effectively share ideas and strategies for progress. The GWB is also a flagship event of the International Year of Basic Sciences for Sustainable Development bringing together people from all science disciplines.

Getting started as a Global Breakfast organizer is simple. If you have any problems, contact us at globalbreakfast@iupac.org.

Event Calendar

INNOVATION CUP 2023

Great minds come together at Merck KGaA, Darmstadt, Germany

What's in it for me?

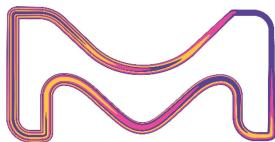

If you are a post graduate student with an interest in the pharmaceutical or chemical industry, the Innovation Cup is your chance to gain in-depth knowledge about research and development, to network with top students from around the world and to build a business case together with experienced professionals. Selected top performing participants could get an offer for a permanent employment at Merck KGaA, Darmstadt, Germany. All participants will also get a free ticket for the Curious2024 - Future Insight Conference (www.curiousfutureinsight.org).

Who can apply:

Advanced students and post docs in the fields of life science, material science, data science and business administration from all over the world can apply:

- Sciences: Post graduate students on their way towards a PhD in biology, medicine, biotech, bioinformatics, data sciences, biochemistry, chemistry, pharmacy, physics or engineering.
- Business: Advanced MBA students or recent MBA graduates with an interest in the pharmaceutical or chemical business.

Not open to healthcare professionals.

How it works:

During a one-week Summer Camp, 42 selected students will attend in-depth presentations about the pharmaceutical and chemical industry given by researchers and managers of Merck KGaA, Darmstadt, Germany and its affiliates. The participants will be divided into teams, work together to develop a business plan and present it to a grand jury, who will award the Innovation Cup for the best plan along with a cash prize of EUR 20,000 plus EUR 5,000 and EUR 3,000 for the runner-ups. Options to implement the best business plans will be evaluated. A conference with alumni of previous Innovation Cup editions will be held on the first day of the Summer Camp.

The Innovation Cup will comprise the following team topics: oncology, autoimmunity, medicinal chemistry, protein engineering, artificial intelligence/machine learning, neuromorphic computing and smart manufacturing. Further information about the program and how to apply online from November 1, 2022 until January 31, 2023: <http://innovationcup.emdgroup.com>

Location:

Near Frankfurt am Main, Germany, June 10 – 16, 2023. Travel, accommodation and food expenses will be paid by Merck KGaA, Darmstadt, Germany.

27 November - 2 December 2023 | Cape Town, South Africa

Supported by

The IUIS Congress is the world's leading conference in the field of immunology. It brings together more than 5,000 immunologists from universities, health providers, independent research organisations and industry. It promises to be a landmark occasion for Africa and the global immunology community. This will be the first time such a meeting will be held in Africa and is also the first such meeting after the start of the COVID-19 pandemic. The Congress is hosted by the IUIS, the Federation of African Immunological Societies (FAIS), and the South African Immunology Society (SAIS). The theme of IUIS 2023 will be "Turning Discoveries into Treatments" and we hope to leverage the connectivity between human health and basic immunology – in South Africa, Africa, and globally.

Dear IUIS Community,

As you may be aware, the preparations for the 18th International Congress of Immunology are in full swing!

The IUIS 2023 Congress will be held in Cape Town, South Africa, from 27 November–2 December 2023, and will be a landmark occasion for Africa and the global immunology community. It is the first time that the IUIS Congress is held on the African continent, and the first time we meet in person since the COVID-19 pandemic started. Needless to say, we are incredibly excited to welcome colleagues and supporters from all over the world.

You can find more information about IUIS 2023 at <https://iuis2023.org/> and in the Congress overview.

With kind regards,
IUIS Central Office

ÖGAI PRICES & PROMOTIONS

[On our website](#) you will find detailed information on the call for proposals and the next application deadline.

Grüsse vom ÖGAI Webmaster

Liebe ÖGAI, sehr geehrte Mitglieder,

Auch wir von DocBrown Media wünschen der ÖGAI und allen ihren Mitgliedern frohe Weihnachten und bedanken uns für die gute Zusammenarbeit in den vergangenen Jahren!

Wir freuen uns, dass die neue [ÖGAI](#) Webseite sehr positiv angenommen wurde und sind auch weiterhin für jedes Feedback dankbar.

Als Goodie für das neue Jahr möchten wir außerdem bekannt geben, dass ab sofort alle registrierten Mitglieder der ÖGAI bei unseren Dienstleistungen (Webseiten/Apps/Grafiken/Consulting) automatisch 15% Rabatt erhalten. Gerne können Sie mich dazu

auch direkt unter m.brugg@docbrownmedia.at oder 0660/6280282 kontaktieren.

Ich wünsche Ihnen und Ihrer Familie frohe Weihnachten, einen guten Rutsch und bleiben Sie gesund!

Martin Brugg
