

And the generous support of

ÖGAI – EFIS on Tour Symposium

Friday, March 31st, 2023

13:00 – 18:30

Jugendstilhörsaal

Rektoratsgebäude

Spitalgasse 23

1090 Wien

Co-Chairs:

Wolfram Hötzenecker – Winfried F. Pickl

13:00 – 13:15

Welcome and Introduction

Michaela Fritz – Vice Rector for Research and Innovation, Medical University of Vienna

Wolfram Hötzenecker – President, Austrian Society of Allergology and Immunology (ÖGAI)

About EFIS

Winfried F. Pickl – Treasurer, European Federation of Immunological Societies (EFIS)

13:15 – 13:45

Vaccination in the light of the COVID-19 pandemic

Ursula Wiedermann – Medical University of Vienna

13:45 – 14:15

Insights in human B cell differentiation upon infection and vaccination

Marieke van Ham – Sanquin Research, Amsterdam

14:15 – 14:45

Generation of memory plasma cells by vaccination

Andreas Radbruch – German Rheumatology Research Centre, Berlin

14:45 – 15:15

The mechanisms of allergen-specific immunotherapy

Rudolf Valenta – Medical University of Vienna

15:15 – 15:45

Imaging and sequencing: adding more content to the high parameter cytometry landscape

Jens Fleischer – BD BioSciences, Heidelberg

15:45 – 16:15

Coffee break

16:15 – 16:45

Precision medicine in dermatology and allergology

Wolfram Hötzenecker – Kepler University Hospital, Linz

16:45 – 17:15

Factors and mechanisms regulating skin immunity

Maria Sibilia – Medical University of Vienna

17:15 – 17:45

Immunosensing of liver metabolic stress and early events in development of steatohepatitis

Bojan Polić – University of Rijeka

17:45 – 18:15

Human T lymphocytes: activation, differentiation and immune regulation

Federica Sallusto – ETH Zürich and IRB Bellinzona

18:15 – 18:30

Wrap-up
